

REALTRADE
corporation

WHO WE ARE?

REALTRADE is one of the largest FMCG distributors in Ukraine. The company also has an export department that sells products to other countries.

We cooperate with all sales channels and provide the necessary level of representation and merchandising. Innovative approaches and technologies allow it to respond quickly to customer needs and successfully achieve strategic goals.

The company holds leading positions in the European and Ukrainian snack markets.

Every year we confirm our quality and innovation with awards. For example, "Snekkin" was awarded the EFFIE AWARDS UKRAINE 2015 GOLD in the "Product Launch category". "SEMKI" and "Kozatska Glory" received the "Favourite of Success 2016" award.

The production facilities of the company were opened in the Dnipro region. The company has products TM named "SEMKI", "Snekkin", "Kozatsika Glory", "KartoFan", "Macho", "My Fisherman", "RED" and "KartoFun".

OUR VALUES:

INNOVATION: We create and implement new original ideas to create functional, impulsive, innovative products, applying professionalism and flexibility.

SOCIAL RESPONSIBILITY: We voluntarily make a contribution of our company to the development of society in the social, economic and environmental spheres. It is directly related to the creation of innovative products, as we feel responsible for new generations.

LEADERSHIP: We are present in many countries around the world and demonstrate our leadership through inspiration to achieve our vision. We apply the world's best management practices and work for results. Our employees are our great potential. We lead through partnership.

OUR MISSION:

**We enhance the "taste of life" with our products. We respect your time and create comfort.
Enjoy every moment!**

FEEL TASTE OF LIFE

RANGE OF PRODUCT

Macho Croutons

CHARACTERISTICS

- Regularly shaped croutons made according to the traditional recipes, fried in high-quality oil as per unique technology;
- Based on specially processed rye-wheat bread, which is prepared of natural starters and natural malt, making the croutons incredibly crispy and delicious;
- Convenient shape and perfect crispness of the product;
- A vivid range of the most popular and richest flavors, namely meat, savory and spicy.

ADVANTAGE

- These are the only croutons that are fried in oil. That is why the fat content of TM Macho croutons is 30%, while the competitors have a maximum of 23%;
- For the production of croutons, we use fresh rye-wheat bread, which, after being cut into quite large slices, is fried in oil with the addition of fragrant seasonings and spices;
- Thanks to this technology, toasts have a richer flavor of bread and additives and harmoniously supplement beer;
- Thanks to the traditional recipe, the taste of rye bread and malt with a pleasant slightly sour taste is felt;
- Artificial food flavoring and preserving agents are not used in the product manufacture;
- The high-quality packaging helps maintain flavor and properties of the product throughout its shelf life.

BENEFITS FOR RETAIL OUTLETS

- A product that is significantly different in quality from its counterparts;
- TM "Macho" has loyal consumers;
- The product allows for the expansion of the customer audience;
- Thanks to quality packaging, the product retains its quality in the conditions present in the retail outlet;
- Competitive price policy of the product.
